

BASE ASSEMBLY

To be used with GME AW36 range of detachable whips

ABL014

ABL015

PLEASE READ THESE INSTRUCTIONS IN THEIR ENTIRETY BEFORE COMMENCING INSTALLATION.

LOCATION SELECTION

1. Choose an open position clear of major obstructions (such as metal grab-rails) to reduce signal shadowing and improve the achievable range.
2. Consider the cable routing and distance to the equipment. Flexing of the antenna during vessel motion will place stress on the mounting point, so select a sound, rigid and ideally flat surface.
3. Verify that it is safe to drill through the desired location (e.g. no electrical wiring).
4. If intending to 'angle' the antenna flat when not in use, ensure the whip is free of obstructions when folding.

INSTALLATION

1. Use the base to mark out where the three (3) screw holes are to be drilled. The swivel part of the base will need to be removed to access all three (3) screw holes. To do this remove cover on the handle (a) and undo the nut using the tool supplied (b).

2. Drill each of the three (3) retention holes and single (1) cable hole to size.

3. Two (2) rubber wedge discs are supplied with the base if required. Drill out holes to correspond with holes on the base.
4. If you wish to pass antenna cable through the base, drill out one of the blind holes on the antenna base using a 10 mm drill bit. Pass antenna cable through drilled hole and rubber wedge (if being used) and through hole in deck of boat. Using the supplied split rubber grommet, place over cable on underside of base and push into recess as shown. As base is screwed down, rubber grommet will seal gap between base and cable.
5. To optimise seal, apply a bed of neutral cure silicon sealant under the bottom of the base.
6. Firmly secure the three (3) retention screws. Do not over tighten, it is better to check and further tighten after approximately one (1) month of use.
7. Finally, route the remaining cable to the radio equipment.

IMPORTANT: It is recommended not to cut or shorten the supplied cable. For longer cable runs, please contact your GME dealer for the appropriate GME extension cable.
