AM/FM Fibreglass Radome Antenna - AEM4702B / AEM4705B

16<sup>th</sup> November 2021

GME is proud to introduce the newest additions to our AE4700 series of fibreglass radome antennas, the **AEM4705B** and **AEM4702B**.

These rugged, all-terrain AM/FM/DAB+ antennas are designed, engineered and manufactured in Australia, to perform in the toughest conditions of the Australian outback.

Using common mechanical components, the **AEM4705B** and **AEM4702B** have been designed to match our most popular UHF CB antennas, the AE4705B and AE4702B.

With a purpose-built facility based in Sydney, GME continues our on-going commitment and dedication to local Australian manufacturing. Local manufacturing ensures GME can continue to produce the highest quality communications equipment tailored to the harsh Australian landscape.
