AEM5 1295mm AM / FM Stainless Steel Antenna

19<sup>th</sup> June, 2020

GME is proud to launch the newest addition to our range of AM/FM antennas, the AEM5. This stainless steel antenna is Australian designed and manufactured as a mobile AM/FM Stainless Steel Antenna to suit the needs of the heavy vehicle industry.

The AEM5 is a base loaded antenna specially designed for improved AM radio frequency performance but covers AM / FM and DAB frequencies. Intended for mobile applications with a highly flexible tapered stainless steel whip. This antenna is packaged with a mounting base, 5 meters of low loss coaxial cable and audio connection.

GME has a specialised design team with the ability to develop application specific antenna products. With a purpose-built facility based in Sydney, GME continues our on-going commitment and dedication to local Australian manufacturing. Local manufacturing ensures GME is able to produce the highest quality communications equipment tailored to the harsh Australian landscape.
