

New Product Release

AEM6 700mm AM/FM Stainless Steel Antenna

18th January 2021

GME is proud to launch the newest addition to our range of AM/FM antennas, the AEM6. This high-quality, stainless-steel antenna is designed and manufactured in Australia to suit the needs of the heavy vehicle industry.

The AEM6 is a base-loaded antenna specially designed for improved AM radio frequency performance, but also covers AM/FM and DAB frequencies. The antenna is supplied with a mounting base, 5 meters of low-loss coaxial cable and an auto plug for easy connection to most stereo units.

GME has a specialised design team with the ability to develop application-specific antenna products. With a purpose-built facility based in Sydney, GME continues our ongoing commitment and dedication to local Australian manufacturing. Local manufacturing ensures GME can produce the highest quality communications equipment tailored to the harsh Australian landscape.
