

New Product Release

McGrath Foundation Pink Microphones

18th January 2021

GME is excited to announce that we will be running a limited-edition range of pink microphones to support the McGrath Foundation. The MC553MCG and MC557MCG microphones to suit our most popular UHF CB radios in the Heavy vehicle and Agriculture markets are now available in a vibrant pink colour.

Both the MC553MCG and MC557MCG are heavy-duty microphones featuring our latest high-quality neoprene curly cords and have a PTT button that has been tested to over 1 million push cycles for years of reliability. The MC553MCG suits the TX3510, TX3520 and TX4500 series radios, while the MC557MCG suits the TX3500 series radios. Both microphones now include the popular MB207 magnetic microphone mount for greater usability.

As part of our ongoing corporate partnership with the McGrath Foundation, GME will donate 10% of the sales of these limited-edition pink microphones directly to the McGrath Foundation to assist in their tireless efforts of funding and supporting McGrath Breast Care Nurses in communities across Australia.
