Quality, Safety and Environment Policy

Our Services

GME Pty Ltd is a high-quality supplier of electronic communication technology to domestic and international markets, including the Defense and Aerospace industries. GME takes pride in its Australian design, development, and manufacture of electronic and communication equipment.

Commitment

GME supports its vision of "Empowering people to feel safe and connected" through a strong commitment to:

- Strengthen its market leading position as a manufacturer or subcontractor of high quality, reliable products through innovative technology and manufacturing excellence.
- Continual improvement of quality, safety, and environmental management systems, and the enhancement of the management systems performance using Plan-Do-Check-Act cycles.
- Ensuring compliance with legislation and the satisfaction of relevant requirements.
- Consultation and participation with workers on health and safety issues.
- Providing safe and healthy working conditions that aim to prevent work-related injury and ill health.
- Protecting the environment and preventing pollution through waste management and sustainability initiatives.
- A continued focus on eliminating hazards and the reduction of risks.

Approach

GME Pty Ltd has implemented a whole-of-company approach to quality, including:

- Reviewing performance against measurable objectives and targets.
- Developing production processes that detect and correct quality failure.
- Determining the resources required to implement such processes and ensuring they are continuously available.
- Ensuring customer and applicable statutory and regulatory requirements are determined, understood, and consistently met.
